

DAR Historic Preservation Grants

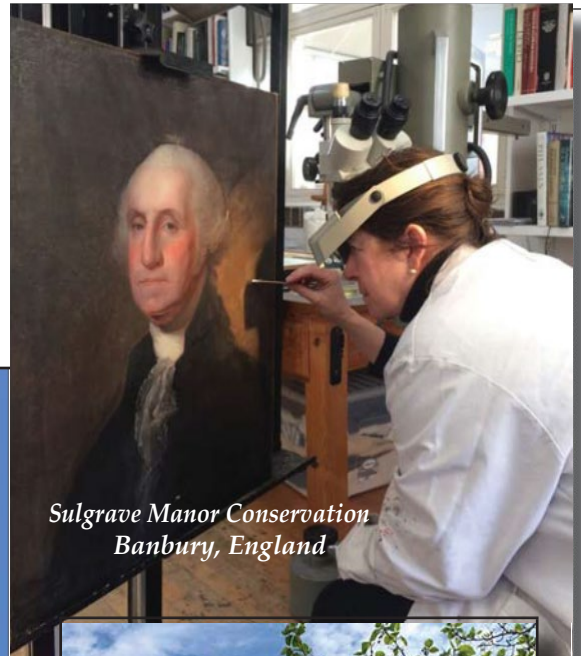

DAR has a proud tradition of historic preservation that dates to our organization's founding in 1890. We invite local 501(c)(3) organizations interested in preserving historic resources, sites, & other history related projects to apply for a grant.

Projects related to all chapters of American history are eligible for consideration. Extra consideration is given to those that relate to the Colonial or Federal periods. The maximum award is \$10,000. Smaller projects are encouraged.
